

Mark and Deb, Attached is a picture of Jake at 10 weeks. Jake has been growing like crazy and is definitely a handful! He is an energetic, affectionate puppy who loves to play tug. House training is coming along nicely. Jake is a sturdy puppy with a friendly disposition. He gets on well with other dogs, and just wants the cats to play with him. They are not too keen on the idea, but he keeps trying. No incidents with the cats, but unfortunately they haven't quite taken to him yet. Purchasing Jake directly from you the breeder was definitely better than going through a pet store. He was well adjusted to interact with people and other animals. With pet stores you can never be sure. Sean & Jocelyn
