

Hi the Steeves family!

Thanks for the email. All is well in Minnesota, we are enjoying the nice fall weather. Misha went to the Vet yesterday for a check up and her shots she received a very clean bill of health. They were very complimentary to her, she is very healthy and has a great demeanor. Misha and Sammy are the stars where ever we go. The Vet loved Misha of course and said it was a great combination breed. Misha was so scared when I took her yesterday, she climbed onto my shoulder and dug in! But was a happy camper when we left. I was telling the Vet how we had to wait a few extra weeks to get Misha because the weather was so hot, and they told me you

were excellent breeders for making sure Misha was safe. Deb, I hope you are feeling better, I had some kind of flu on Sunday-yuk! I am glad to hear the borders have opened up can we buy some beef from you? Randall and I really watch our meat intake because I do not trust what they feed their cows. I am sure you know what I mean. I am serious about buying some meat!

Molly and Spike make beautiful babies! I would really like to breed Misha because she is so beautiful, but Randall says NO! I say share the beauty! Sammy Jo is doing very well, she has lost weight, and LOVES her SISTER! We will take some new pictures

and send them off shortly. I hope all is well with the family. Keep in touch!

Stay safe!

Melonie and Randall
