

Hi Mark & Debbie,

Molly is GREAT!!!! We are so happy with her and she has fit into the family perfectly!!!! She is on her first camping trip with us this week and is having a blast. We are with another family with two dogs and she is loving it!! They have a three year old boxer and a four month old puppy lab X golden retriever. The lab X is Molly's best friend!!

She is going to the vet again for another set of shots on the 23rd and they are going to check her hernia. They are a little worried it is going to heal on its own but not heal properly because it is getting smaller but her insides keep popping out. They may want to operate earlier than six months to fix her and do the hernia at the same time. I will let you know what they say. I hate to ask this but we were wondering if Mark was still going to refund the \$300 for Molly? I am sure you understand we are trying to budget if we need to get her fixed earlier.

Were you able to find homes for the other puppies that are from the same litter as our Molly?

Congratulations on your Molly's puppies!!! Do you have pictures of them yet? I would love to see them!! In another year or two we would love to get another puppy!!!! Our Molly is so fantastic!!! We just love her to pieces. We took her to the beach yesterday and she went for a swim with me. She seemed to like it but was a bit chilly after so we cuddled for a bit. She was good to go! She is sleeping in the camper with Gracie right now, she loves to cuddle and does great in the night.

Thanks for the email and thank you even more for the best dog ever...we love her lots!!!!

Janice and family
